

Pre-Optometry

Students intending to enter the field of optometry should consult with the pre-optometry adviser in planning their curricula. In general, the bachelor of science, cellular/molecular/genetics track in biology with two semesters of calculus (MAT 120, 220) is a useful model.

Residents of Kentucky are provided spaces at Indiana University School of Optometry (Bloomington), Southern College of Optometry (Memphis, Tennessee), and the University of Alabama at Birmingham School of Optometry. These students are exempt from out-of-state tuition.
