

## Course Syllabus

General Chemistry II  
M, W, F 9:00 - 9:50, SC 308

CHE 121 - N01

Spring 2005

Instructor: Dr. Laura Padolik

Office: SC 451 Phone: 859-572-6113 e-mail: padolikl@nku.edu

Office Hours: M, W, F 10:00-11:30, W 1:30-2:30

Prerequisite: General Chemistry I

Corequisite: General Chemistry II Laboratory

Required Text: *Chemistry The Molecular Science*, Moore, Stanitski, Jurs. Second Edition, Thomson, Brooks/Cole

Course Description Chemistry 121 is a class for science majors where the principles of chemistry from General Chemistry I are explored in further detail. Topics covered include solutions, kinetics, equilibrium and acid and base chemistry. This class meets the general education requirements in the natural sciences.

Course Calendar: Important dates and the tentative class schedule are found on the class calendar which is on the next page.

Attendance: Although attendance is not normally taken, students are responsible for all information, material and assignments presented in class.

Blackboard: Students will be expected to use Blackboard to receive announcements and any additional information about class. The syllabus, class calendar, handouts, answers to homework assignments, quizzes and exams will be posted on Blackboard. Out of class, on line quizzes will also be given in Blackboard. See below for more details. Blackboard can also be used to check grades and find useful websites.

Assignments: Chemistry is a problems based course and successfully completing all assigned problems will help you succeed on quizzes and exams. An online website called OWL (Online Web based Learning), administered by Thomson Learning will be available for student use. Problems assigned in OWL will count toward your grade. Tentative due dates for each set of chapter problems are listed on the course calendar. There will be a total of 10 assignments throughout the semester; each assignment worth 10 points. A list of recommended problems from the text book may also be provided. These will not be collected or count toward your grade.

Exams: There will be 4 exams and a comprehensive final exam; the dates for these are listed on the calendar. In general, there will be no make up exams. If you miss an exam because of an emergency, you must contact the instructor before the next scheduled class meeting.

Final Examination: The General Chemistry standardized test, written by the American Chemical Society is given in this class.

Quizzes: Two kinds of quizzes will be given. Online quizzes will be given through Blackboard on dates marked on the schedule (mostly Thursdays). Students will have from 8:00 am to 10:00 pm to go on line and complete the quiz. Students are expected to work independently without the aid of books or notes. Please follow the NKU Honor Code. Eleven online quizzes will be given. Three in class quizzes will be given, the dates of which are noted on the schedule. Each quiz will be worth 15 points and your ten top scores will count towards your grade.

Calculators: Calculators are necessary for this class. In order to maintain equality however, programmable calculators will not be permitted for use on exams or quizzes.

Grading:	Exams:	400 points (100 points each)
	Final Exam:	150 points
	Quizzes:	150 points (15 points each)
	OWL Homework	100 points (10 points each)

Scale:	A	$\geq 720$ points ( $\geq 90\%$ )
	B	640-719 points
	C	560-639 points
	D	480-559 points
	F	< 480 points

The Tentative Calendar is attached to the syllabus.

Links to disability services and the learning assistance program can be found on Blackboard.

The work you will do in any course is subject to the Student Honor Code. The Honor Code is a commitment to the highest degree of ethical integrity in academic conduct, a commitment that, individually and collectively, the students of Northern Kentucky University will not lie, cheat, or plagiarize to gain an academic advantage over fellow students or avoid academic requirements.

Cheating will not be tolerated. In accordance with the Code of Student Rights and Responsibilities, faculty members have the right to determine actions to be taken when a student is caught cheating.

The Instructor reserves the right to modify the syllabus at any time during the semester.

Students are required to read and understand the contents of this syllabus. Any questions must be brought to the instructor's attention by January 21, 2005.

Faculty members reserve the right to dismiss or to have removed a disruptive student from their classrooms.
