Graduating?

With the approaching **October 8 deadline** for students to apply for spring 2008 graduation, we would like to remind you of a few items that should make the process go more smoothly for both students and advisors:

- **Program Certifications**

Program Certifications for majors/minors/areas of concentrations are required and must be submitted with the degree application. Please assure that program certifications are complete and represent all requirements as needed for degree completion.

- **Degree Audits**

Please check your degree audits. Please keep in mind that the unofficial degree audit is an advising tool provided to assist academic advisors and students in assessing students' academic progress; however, it is not an official verification tool. The Office of the Registrar uses the program certification as the official documentation of major, minor and area of concentration requirements.

- **General Education**

Please check for completion of General Education requirements. The degree audit is helpful in identifying deficiencies, but the catalog outlines general education requirements as specified by the university.

For students who will not complete requirements in the spring, the application deadline for summer or fall 2008 graduation is April 8, 2008. Thank you for all that you do for our students.
