

Sea level rise in North Carolina: is sea level rise likely to be linear?

Mining company reports pollution levels at its waste sites:

## Conductivity Values Reported by Frasure Creek Mining in Kentucky

1. Before EPA guidance announcement, 2. After guidance announcement, and 3. After new sampling lab was hired

Source: Discharge Monitoring Reports provided by the Kentucky Department for Natural Resources. Data compiled and analyzed by Appalachian Voices, May 2011

Graphic (called the "escalator model") showing that the temperature is almost always falling....
