

REFRESHER MODULES

- Anyone who has taken the required modules will need to take the “**REFRESHER COURSE**” when the current modules/quizzes expire.
- The initial required modules are **valid for three years**.
- **90 days prior** to your registration date (date you initially registered on CITI website) the refresher course will become a required course when you sign into CITI.
- CITI does not base expiration on the completion date but rather the registration date. Please make note of this.
- The IRB Administrator will send a reminder email prior to expiration.
- Please print all courses using the optional modules link when submitting a protocol or research application.

For more information or questions please contact Maria Stivers @ stiversm@nku.edu or irb@nku.edu. 859-572-5168
