

Alkene Reaction Practice

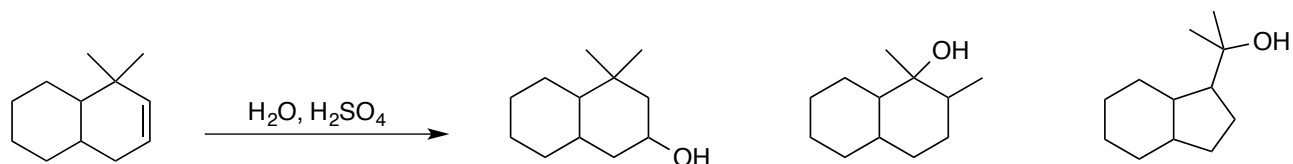

- Fill in the major product(s) on the reaction wheel below with the correct stereochemistry when appropriate.

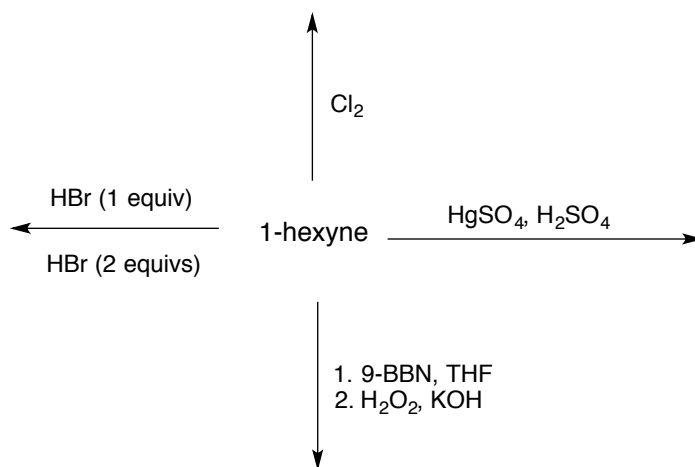

- Fill in the major product(s) for the reactions below with the correct stereochemistry when appropriate.
- Draw a stepwise mechanism for each of the reactions below.

- Draw a stepwise mechanism that shows how all three alcohols are formed from the bicyclic alkene.

- Fill in the major product(s) on the reaction wheel below with the correct stereochemistry when appropriate.

- Draw a stepwise mechanism for each of the following reactions.
