Stream Walk Revisions

The activities and lessons included in the original "**Stream Walk**" unit plans were implemented successfully with my students during the 2003-04 school year. A few minor modifications have been noted in the list developed for "**Groups and Student Responsibilities**" guide included with this unit.

If you are working with larger groups of students, a site that would allow for extended assessment may be an option. Another possibility for completing this lesson is at the new Sanitation District No. 1 facilities. Representatives from the facility provided an overview of the activities and resources available both on site and through Sara Zepf. Sara can be contacted at:

Sara Zepf
Sanitation District No. 1
1045 Eaton Dr.
Ft. Wright, KY 41017
859-578-7450
pziegler@sd1.org

Another excellent resource person for this type of activity is Vikki Rawe from the Kentucky Department of Fish and Wildlife. Vikki can be contacted at 859-635-0037 or at huntwithkids@juno.com.

Please feel free to modify or change any of the materials and forms included in this unit to fit the needs of your students. This is an awesome activity and learning experience for the students. They learn a great deal about how their actions and activities affect the organisms and environment around them.
