

# The Big ID- Vertebrate Sea Creatures

Name \_\_\_\_\_

Today you will try your hand at identifying creatures that live in the water. Most of these are different types of fish, so especially take note of the Kentucky Game Fish.

Using the numbers below, write what you think are the correct answers. Only THEN check to see if you were correct. Don't worry if you're incorrect. Try to use the process of elimination to get ones you are clueless about.
