PURCHASING PERSONAL PROTECTIVE EQUIPMENT (PPE) GUIDANCE

PURPOSE
To provide guidance on how to acquire required personal protective equipment for your personal and/or departmental use. In an effort to provide quality and effective PPE the University has decided to purchase and distribute PPE through a centralized location. Quantities may be limited based upon the overall University requirements and availability. For requests and questions please contact COVID19@nku.edu.

FACIAL COVERINGS
Beginning August 13, 2020 Northern Kentucky University will be providing reusable facial coverings to all faculty, staff, and students. Reusable facial coverings will be available using your NKU All Card. Faculty and staff are eligible to receive (2) facial coverings and students are eligible to receive (1) facial covering. Please see schedule below for distribution.

Limited quantities of disposable masks may be available at the Welcome Center, Student Union and University Center Information Desks, Steely Library Distribution Desk, and Campus Recreation during normal business hours.

DISINFECTANT/CLOTHS
While regular cleaning will be conducted by our Facilities Team, EPA approved cleaning disinfectant and cloths will be provided in all classrooms and office suites for discretionary use by room occupants. If additional bottles of disinfectant and/or cloths are needed please contact Work Control at (859)572-5660.

HAND SANITIZER
Hand sanitizer is available throughout campus in wall mounted hand sanitizing pumps. If additional hand sanitizing dispensers are needed in your area please submit a request to Work Control at (859)572-5660.

Departments may request bulk hand sanitizer by emailing COVID19@nku.edu. Hand sanitizer will not be distributed for individual use, but may be purchased with departmental funds.

GLOVES
Departments may request gloves, but they will only be provided to departments whose duties require gloves to be worn as recommended by the CDC.

For the general public, CDC recommends wearing gloves when you are cleaning or caring for someone who is sick. In most other situations, like running errands, wearing gloves is not necessary. Instead, practice everyday preventive actions like keeping social distance (at least 6 feet) from others, washing
your hands with soap and water for 20 seconds (or using a hand sanitizer with at least 60% ethanol or 70% isopropanol).

**SIGNAGE**
A COVID-19 campus signage program will provide consistent messaging and graphic presentation throughout campus. Signage will include; directional signage, social distancing reminders/requirements, and health and safety announcements. Where appropriate, signs will be installed on floors and walls. To ensure consistency, individual purchase of signage is discouraged and inquiries related to specific needs should be directed to Ali Greer at greera1@nku.edu.

**PLEXIGLASS BARRIERS**
Plexiglass barriers have been installed throughout campus in transactional spaces where face-to-face interaction is high and where social distancing is difficult to maintain. Additional plexiglass barriers may be requested in office suites and academic spaces. Barriers are not intended to be installed in personal office spaces. Requests for plexiglass barrier installation can be made through Audra Points at pointsa1@nku.edu.

**ADDITIONAL ITEMS**
Departments may purchase additional PPE at their discretion with departmental funds.
