NOTES: One course cannot be used to fulfill two Foundation of Knowledge categories, with the exception of ENG 151H**. Students satisfactorily completing ENG 151H will earn 3 credit hours and will complete the Foundation of Knowledge with 34 earned credit hours. **ENG 151H was changed to ENG 104 in Fall 2019.**

- * In meeting the “Scientific & Quantitative Inquiry,” “Self & Society,” and “Culture & Creativity” requirements, students may use only one course from any given discipline. Students may only apply one foreign language course in fulfillment of the Culture and Creativity category.
- + “Communication” and “Mathematics and Statistics” areas should be completed before 45 semester hours are earned.
- † **Fall 2018 - New General Education Courses** for fall 2018 or later. These courses only fulfill Foundation of Knowledge (FOK) requirements if taken beginning fall 2018 or later. ENG 291, ENG 212, GLY 225, and GLY 230 were renumbered to ENG 102, GLY 125, and GLY 130 and NEU 101 was added for the 2018-19 academic year. STA 212 was deleted, but still counts toward FOK if completed prior to Fall 2018.
- †† **Fall 2019 - New General Education Courses** for fall 2019 or later. These courses only fulfill Foundation of Knowledge (FOK) requirements if taken beginning fall 2019 or later. STA 205R, MAT 115R, CHE 130 & Lab, SPB 200, LDR 180.
- ††† **Spring 2020 - New General Education Courses** for Spring 2020 or later. These courses only fulfill Foundation of Knowledge (FOK) requirements if taken beginning Spring 2020 or later: LDR 180, additionally, as of Spring 2020, BIS 111 will no longer be a Gen Ed course offering.

Students should consult the Foundation of Knowledge website (<https://inside.nku.edu/gened.html>) to determine if there have been any changes in the courses approved for each category.

General Education Frequently Asked Questions

1. What are the strange codes in the category boxes?

- SLOs is the abbreviation for Student Learning Outcomes, which are learning goals set by the university that each course in any category should meet. The letter and number codes refer to specific learning outcomes, with each letter representing different domains of learning that exist across different general education categories. A = Critical Thinking, B = Perspectives, C = Oral & Written Communication, D = Science & Technology, and E = Personal Responsibility & Community. The codes here are for informational purposes only. Every syllabus for a general education course will include the relevant student learning outcomes. See <https://inside.nku.edu/gened.html>.

2. Can one course be used for multiple categories?

- No double dipping: students cannot use the same course to satisfy two categories (i.e., ANT 100 cannot be used to complete "Individual & Society" and "Global Viewpoints"). The only exception to this is ENG 151H, which fulfills both "Written I" and "Written II."
- Often courses can be used to fulfill both general education and major or minor requirements. However, several majors and minors do not allow this form of double dipping or have requirements for courses that cannot be used for general education. Please check with an academic advisor.

3. Can two courses from the same discipline be used to satisfy a category requiring multiple classes?

- No. Only one discipline (course prefix) can be taken per category (the top, dark grey box) other than in "Communication."
- Three courses from three different disciplines must be taken in "Scientific & Quantitative Inquiry" (one from "Mathematics & Statistics," one "Natural Science with a Lab," and one additional "Natural Science").
- Three courses from three different disciplines must be taken in "Self & Society" (one from "Cultural Pluralism" and two from "Individual & Society").
- Two courses from two different disciplines must be taken from "Culture & Creativity." Note, for this rule, all foreign language courses count as a single discipline. Two foreign language classes cannot be used to fulfill this requirement.

For example, a student might count SOC 100 in "Individual & Society" and SOC 101 in "Global Viewpoints," but cannot count them as "Individual & Society" and "Cultural Pluralism" (both being part of the "Self & Society" category).

4. How long does a student have to complete the "Mathematics & Statistics" and "Communication" requirements?

- ENG 101 should be completed by the time the student earns 30 credit hours. Other "Mathematics & Statistics" and "Communication" requirements should be completed by the time the student earns 45 credit hours.

5. What if a student has academic deficiencies?

- Students admitted with NKU, CPE, and/or PCC deficiencies (admission requirements) must be enrolled in the appropriate course their first year and are highly encouraged to take any academic deficiencies during the first semester. Please check with an academic advisor.

6. Do the new general education courses on this checklist count if a student took them last year?

- No, new courses approved as general education for Fall 2018 or Fall 2019 only fulfill Foundation of Knowledge requirements if taken Fall 2018 or later or Fall 2019 or later, depending on the approval date. See footnotes (+) and (++) at the bottom of the check sheet for clarification.

7. If a student is part of the Honors College, does this change any general education requirements?

- Honors College students beginning at NKU in Fall 18 or later will complete about half of their general education courses through an alternative honors curriculum and half using this traditional checklist. Please contact the Honors College for specifics.
