

## Exit Survey Data obtained from Graduating Seniors 2011 – 2013

An exit survey is administered at the end of each semester, and students are asked to provide their assessment of satisfaction with the program, and an assessment of their competency in different fields of construction related courses. The following graphs represent student feedback when asked about these different competencies, in addition to the program facilities.

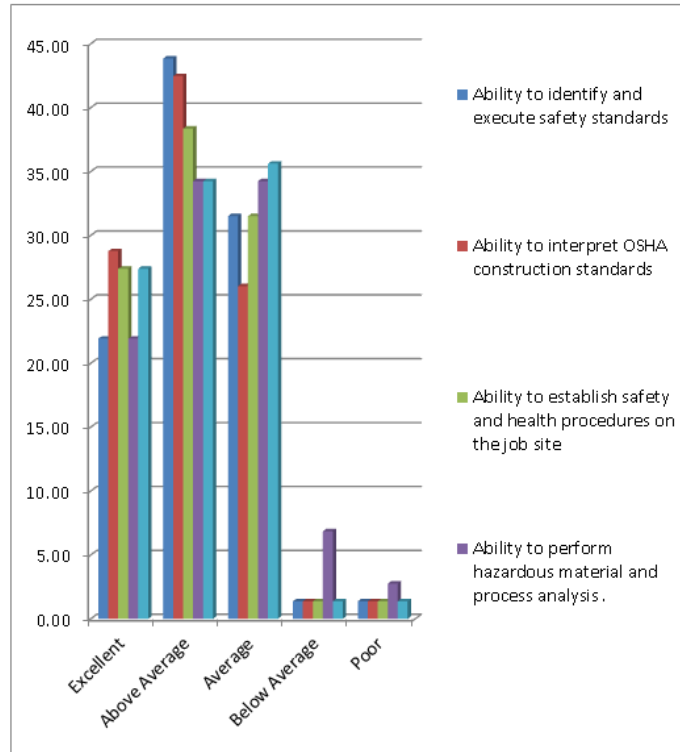

### 1 – Communication Skills

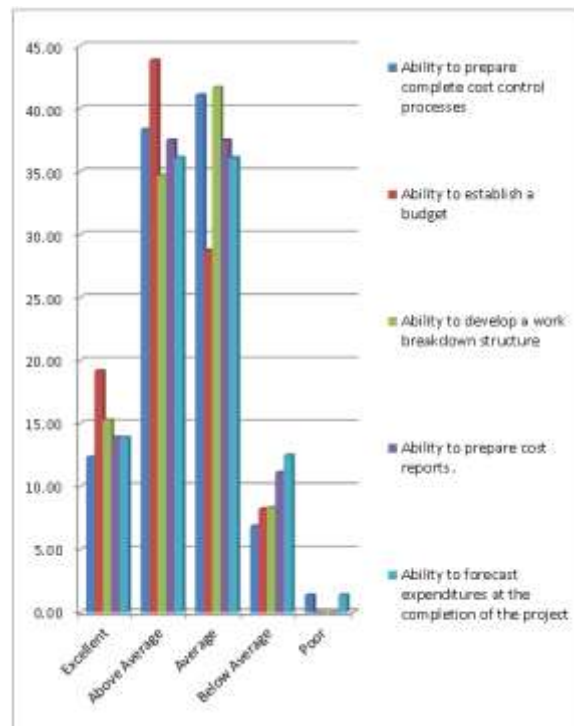

### 2 – General Project Management

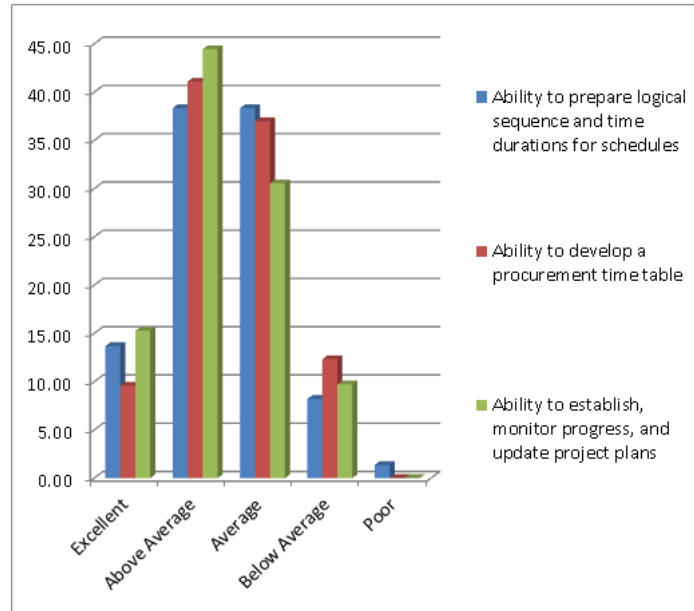

### 3 – Safety Management

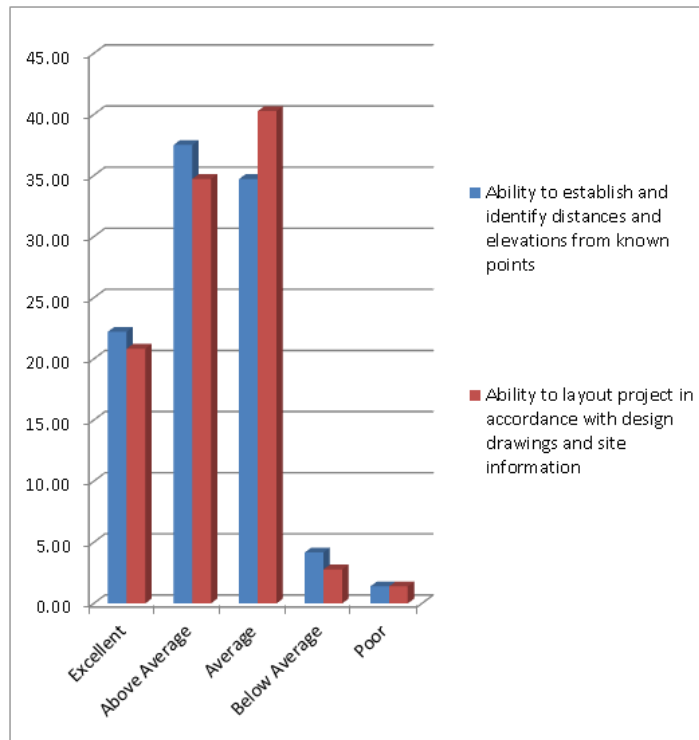

### 4 - Costing and Cost Control

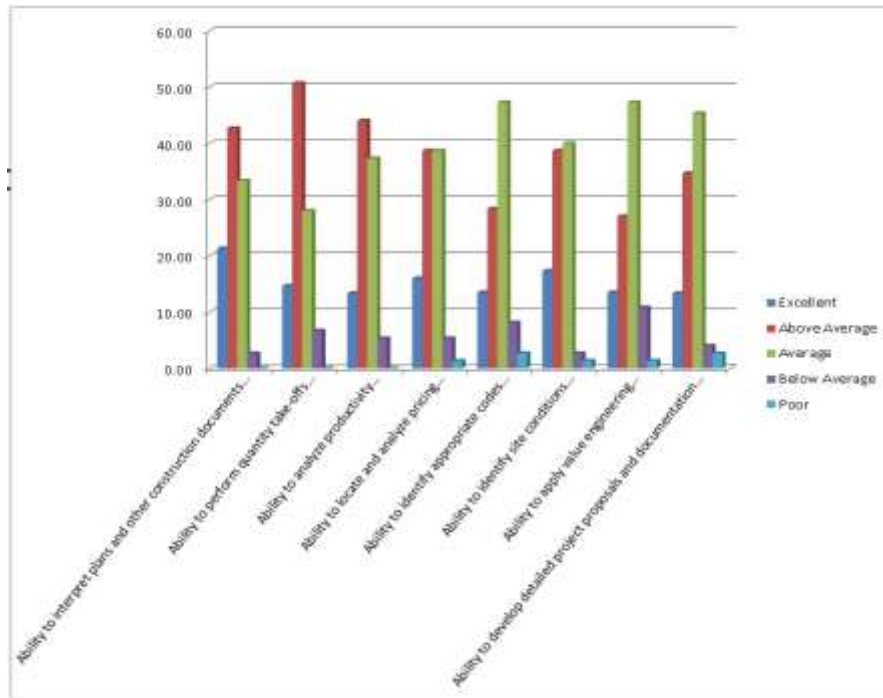

## 5 – Project Scheduling

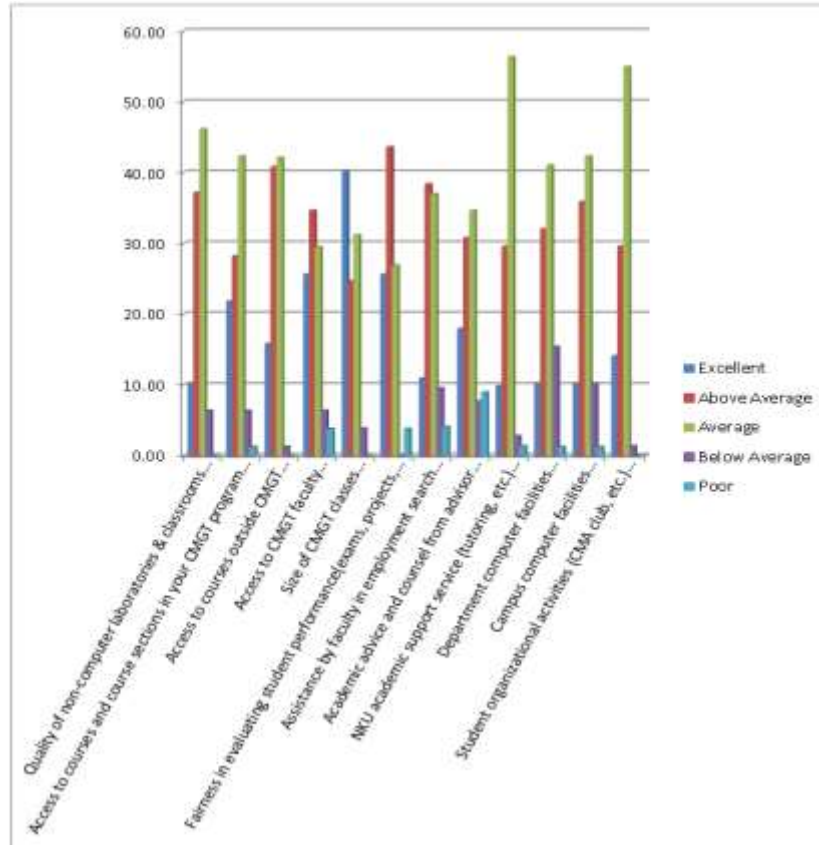

## 6 – Surveying

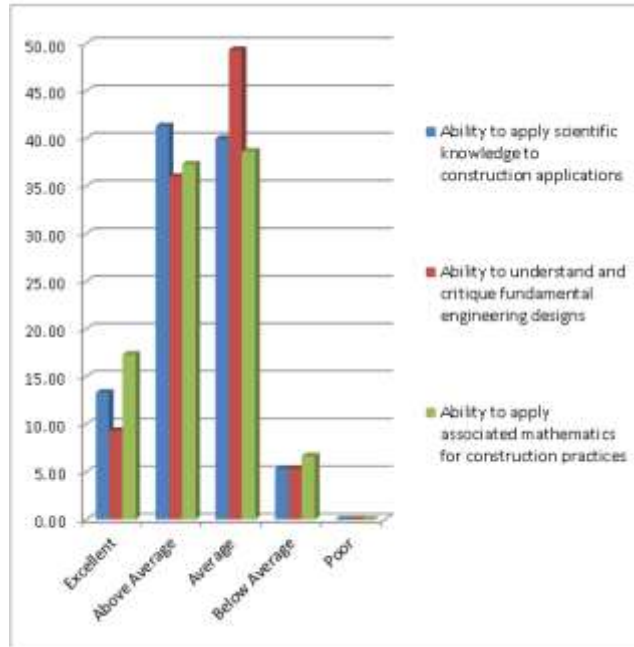

## 7 – Quantity Take-off and Estimating

## 8 – Logistics and Facilities

## 9 – Construction Scientific Principles

## 10 – Materials and Methods
