BIO409 BIOGEOGRAPHY
Spring 2007

Instructor: Dr. Charles Acosta
Office: SC 346
Office Hours: T 3:00-4:00; W 11:00-12:00, or by appointment
Phone: 859-572-5300
Email: acostac@nku.edu (include in Subject line: “BIO409”)
Class: TR 10:50-12:05 in SC304
          Sinauer & Associates Publisher; ISBN 0-87893-062-0

COURSE OVERVIEW
Our goal is to study the distribution of life on earth, synthesized from our understanding of multiple scientific disciplines including Ecology, Evolution, Physiology, Systematics, Limnology, Oceanography, Geology, Geography, and Conservation Biology.

STUDENT LEARNING OUTCOMES
Students will:
1) Discuss the development of historical and ecological biogeography.
2) Demonstrate a complete understanding of principles drawn from various scientific disciplines as applied to biogeography.
3) Critically read and interpret the scientific literature on biogeography.
4) Write cohesive arguments and expositions of biogeographic principles.
5) Discuss applications of biogeography to conservation and scientific advancement.

COURSE FORMAT

- **Blackboard**
  Students should login regularly into the course shell on Blackboard for Announcements, Assignments, Course Documents, and adjustments to the schedule posted to the syllabus in Course Information.

- **Lecture**
  Students must read the assigned chapters and research papers prior to attending class. Class periods will consist of both lecture and discussion of topics.

- **Written Assignments**
  Students will write short essays on assigned primary literature papers and speaker seminars. Assignment descriptions will be posted on BlackBoard Assignments. The format for written assignments is precisely:
  
  **Title page:** Title, Your Name, BIO409 Biogeography, Spring 2007
Abstract page: Brief summary of overall topic; 200 words or less.
Review of Topic 1-2 pages: concise review of important points of paper or seminar
Synthesis of Topic 1-2 pages: critical discussion of topic
Literature Cited: proper citation of all associated papers.

Written assignments must be typed in 12 point font and double-spaced. Multiple pages must be numbered. It is essential that you proofread and edit written assignments for errors in format, punctuation, grammar, and spelling. All assignments must be turned in on their due date. No late work will be accepted. Do not turn in written assignments by email.

- **Assessment**
  There will be three examinations on essential concepts and principles. These tests will be standard multiple choice, definitions, and short essays. Grading for 4 assignments (10% each) and 3 examinations (20% each) will be distributed on the A-F scale.

**GENERAL CLASS POLICIES**

- **Important dates**
  January 29, 2007 – last date to drop the course.
  March 26, 2007 - last date for withdrawal from the course with a “W” grade.

- **University Policies**
  - All policies, rules, and regulations apply, as stated in the NKU Student Handbook. Students are required to read the University Honor Code and Code of Student Rights & Responsibilities. See: [www.nku.edu/~deanstudents/policies.htm](http://www.nku.edu/~deanstudents/policies.htm)
  
  - Grades cannot be given to students over the phone or via email.

  - Study: At minimum, you should spend 3 hours study time for each hour of class time; therefore, you should be prepared to spend at least 9 hours per week preparing for this course. More time spent generally results in a higher course grade.

  - Disruptions: Any behaviors that are disruptive to student learning will not be tolerated. Loud personal conversations are particularly disruptive to other students who are focused on learning. Please turn off cell phones and beepers during class time.

  - Please come to class on time. Also, please resist the urge to pack your belongings before the class ends. This is particularly inconsiderate and disruptive, especially when student groups are holding discussions.

  - Visitors are welcome to this class if extra seats are available. If you must bring young children with you, please sit in the back of the class near the rear door so that you can leave if they become disruptive.
## BIO409 Biogeography
### Fall 2007 - TENTATIVE SCHEDULE

<table>
<thead>
<tr>
<th>WEEK OF</th>
<th>TOPIC</th>
<th>ASSESSMENT</th>
</tr>
</thead>
</table>
| January | 8-12  | Chapter 1: Introduction  
|         |       | Chapter 2: History       |
|         | 15-19 | Chapter 3 Physical Setting |
|         | 22-26 | Chapter 4 Geography & Distributions  
|         |       | Assignment 1 |
| February| 29-2  | Chapter 5 Communities |
|         | 5-9   | Chapter 6 Dispersal |
|         | 12-16 | Chapter 7 Speciation & Extinction  
|         |       | Exam 1  
|         |       | (Chap. 1-6) |
|         | 19-23 | Chapter 7 continued |
| March   | 26-2  | Chapter 8 Plate Tectonics |
|         | 5-9   | -- Spring Break -- |
|         | 12-16 | Chapter 9 Glaciation |
|         | 19-23 | Chapter 10 Endemism & Disjunction |
|         | 26-30 | Chapter 11 & 12 Reconstruction |
| April   | 2-6   | Chapter 13 Island Biogeography Patterns  
|         |       | Exam 2  
|         |       | (Chap. 7-12) |
|         | 9-13  | Chapter 14 Island Biogeography Evolution |
|         | 16-20 | Chapter 15 Diversity Gradients |
|         | 23-27 | Chapter 16 Extinctions  
|         |       | Chapter 17 Conservation  
|         |       | Assignment 4 |
| May     | 3     | FINAL EXAM  
|         |       | (Chap. 13-17) |
