

*Verse 1:*

Like Counting blocks, 1 2 3

Each one matches, it's plain to see

One apple, one number, you know it's true

A perfect pair, that's what we do

*Bridge:*

It's not just counting, it's an important skill

A key to success, a mathematic thrill

Patterns and relationships, we start to see

It's this correspondence that's setting us free

*Chorus:*

One-to-one, a special bond

Each thing matched, an idea donned

Counting with care, we're on the same page

a one-to-one relationship, a mathematic stage

*Verse 2:*

We first learned this on Sesame Street,

When the penguins called Humphry, for something to eat

When Ingrid couldn't get, their order right

We learned how to count, and our future was bright

*Bridge:*

It's not just counting, it's an important skill  
A key to success, a mathematic thrill  
Patterns and relationships, we start to see  
It's this correspondence that's setting us free

*Chorus:*

One-to-one, a special bond  
Each thing matched, an idea donned  
Counting with care, we're on the same page  
a one-to-one relationship, a mathematic stage

*Final Refrain:*

One-to-one, a special bond  
Each thing matched, an idea donned  
Counting with care, we're on the same page  
a one-to-one relationship, a mathematic stage
