Student Requirements:

1) Class attendance and homework assignments are required because of the nature of the course. Two unexcused absences will lower final course grade by one letter grade.

2) Attendance at all exams is required unless extenuating and documented circumstances occur - for example, an accident or serious illness (with a doctor’s excuse). Eligible make-up exams will be given at the final exam period.
All students must meet the same requirements.

NOTE: Students with disabilities (sight, hearing, etc.) please call this to my attention so assistance can be provided.

NOTE: This syllabus should be viewed as a working plan for the semester. Circumstances may necessitate changes in the plan during the course of the term. Changes will be at the discretion of the instructor in consultation with the class.

NOTE: One core value held by the Department of Psychology is the importance of effective writing. Our expectation for students in Psychology courses is that written assignments be prepared according to accepted college-level standards for English usage, including grammar, punctuation, spelling, sentence structure, and composition. That is, students will be expected to proofread, edit, and correct their own work in these areas prior to submitting assignments for grading and evaluation. Examples of these assignments may include, but are not limited to, research papers, article summaries, group projects, class papers, take-home essay examinations, and independent study projects. Assignments that do not appear to have been proofread, edited, and corrected prior to submission may be returned to the student for revision before grading, at the discretion of the instructor, or may receive a lower grade that reflects the level of writing skills demonstrated. Experience suggests that writing clearly, concisely, and compellingly requires thought and organization. Give yourself time to organize, draft, revise, and proofread. The requirement of using the library/writing lab resources will be assigned during the course of the semester.

The work you will do in this course is subject to the Student Honor Code
