Overall Goal

Develop a plan to apply your learning during the course to your classroom teaching. This plan should align the content you will teach to the Kentucky core content for assessment which is appropriate for the grade level(s) you teach. This plan could involve such applications as a series of lessons, the development of learning centers, the development of course materials to supplement teaching, or involving your students in the Water Sentinels Project or other Adopt a Stream or Adopt a Watershed programs.

Due Date
The curriculum plan you develop will be due by Friday, August 8, 2003. Please submit the plan electronically to Dr. Meichtry at meichtryv@nku.edu as an email attachment (Word or RTF format). Grades will be submitted by August 18, 2003.

Guidelines
Cover Page
- Title of Course & Course Number
- Title of Curriculum
- Grade Level(s) Taught
- Subject Area(s) Taught
- Name
- School and District
- County

Curriculum Plan
- Lesson Context
- Core content for assessment addressed
- List of Materials
- Procedure
- Accompanying handouts/materials
- Definition/Explanation of concept/skill
- Method to assess student learning. Describe the method(s) you will use to assess student learning and include a minimum of one assessment question. This question might be a student self-assessment question, a performance-based assessment, or an open-response question. Your question should include a rubric.
